Constellation Energy Corporation Supports Chamber Non-Profit Members National Constellation Energy leaders focus on local Southern Chester County community support and giving back.

January 7, 2024 (Kennett Square, PA) – Southern Chester County Chamber of Commerce Board Member, Ron DiSabatino and his team provided much needed support to Chamber non-profit and small business members this holiday season.

DiSabatino, Vice President of Engineering at Constellation Energy, invited 45 leaders from around the northeastern United States to an in-person training and work session at their Kennett Square office location. Through his relationship with the Southern Chester County Chamber of Commerce, DiSabatino was able to connect with a variety of Chamber members as a resource for the two-day session.

Chamber member, Kennett Library, hosted the Constellation team for two days of work training in one of their new spacious classrooms. SCCCC member, Hangry Bear Creamery, provided delicious food and beverages for the two-day training, and for an after-hours cocktail hour and team building paint night.

SCCCC member, Calabrese Arts, served as the event venue for the team’s cocktail hour and team building paint session. Owner Guenevere Calabrese was a “fantastic host and led us through the painting of a winter scene,” said DiSabatino. My team of engineers had a blast and said it was the best team-building event they’ve ever done. Guenevere and I met at a Chamber retreat and thought of Calabrese Arts when looking for a new and different option for a team social event.”

For Immediate Release

Constellation Energy also recently donated and installed, free-of-charge, an emergency backup generator for SCCCC member, Tick Tock Early Learning Center. The generator will allow the Center to remain open and keep kitchen refrigeration, emergency lighting, security systems, and other circuits energized during power outages. Tick Tock Executive Director, Susan Czerwin had this to say, “Ron – I’m so grateful to have met you through the Chamber. You and several Constellation leaders heard me talk about the storm damage this past summer and you took it upon yourselves to find a way to help. I greatly appreciate the compassion you hold for families who are just like the rest of us – working to provide a good life and education for our young children. Constellation recognizes and understands the childcare crisis and you chose to be part of the solution!” Social Posts from Constellation on their project with Tick Tock Early Learning Center, can be found here on [LinkedIn](#), [X](#), [Instagram](#) and [Facebook](#).

“The Chamber is proud to support opportunities such as this one for Ron, the Constellation Energy team and our membership”, said SCCCC President and CEO, Cheryl B. Kuhn. “Connecting members with the business community is a win-win. When we can facilitate making this happen, we are serving our mission as the region’s leading business organization”.
